

Paperwork

At the time of your visit to our center, you were given this parent handbook, along with several other documents. We are required to have these documents on file once your child is enrolled in our program. Please complete all your paper work and return it to the office. Keep your parent handbook in a place you will be able to reference it easily for answers to questions you might have. Once you enroll there are several documents that we are required to have you update annually.

- The Blue Card
- The Immunization as needed
- The Income Eligibility Form Application for our child and adult care food program
