New Day Children's Center is proud to be launching a new system called Procure!

Procure is the No. 1 name in child care software – used by more than 30,000 child care businesses across the country. This software will allow us to track student data, classroom ratios, attendance, and parent communication easier in live time! We are hoping that you all find this software as easy and efficient as we do!

Our first step to implementing the system is going to be allowing parents to sign their child in and out via the classroom kiosks on the classroom iPads or via a scanned QR code which will be posted around the center, and outside of each classroom door. By using this system, we will be able to track ratios in live time from anywhere in the center, as well as attendance if needed.

You will receive an email inviting you to join Procure. When you join, you will receive a 4 digit pin to enter when signing their child in/out. Just scan the QR code, enter the pin, sign your name, and your child is checked in/out! If you do not receive and invite or cannot find your pin, stop into the office and we will make sure you have what you need. Our hope is that this makes signing in and out of our center more efficient for both the staff and for you as parents!

Have multiple kids in the center? You will only need one pin for all three, and you can sign them in all at the same time!

We will also be beginning to transition from Class Dojo to Procure entirely for parent communication throughout the next month or so. There is an app you can download; you can find it by searching "Procure" on your Android or Apple mobile device. The app will look like the picture to the right. From the app, you will be able to directly message your classroom teachers for any communication needs you may have. You may also find daily reports for your child there, pictures, newsletters, and more! To learn more about the app, you can visit <https://help.procureconnect.com/en/articles/5728665-parents-getting-to-know-your-procare-app>.

We know that transitions like this may not be flawless, we ask for your patience as we work through the kinks. If you have any questions or concerns, please reach out to Rachel Thomas at rachelthomas.newday@gmail.com, at 315-788-1787, or stop into the office at any time!
